

# REDE ANTIPÁSSAROS E ANTI-INSETOS

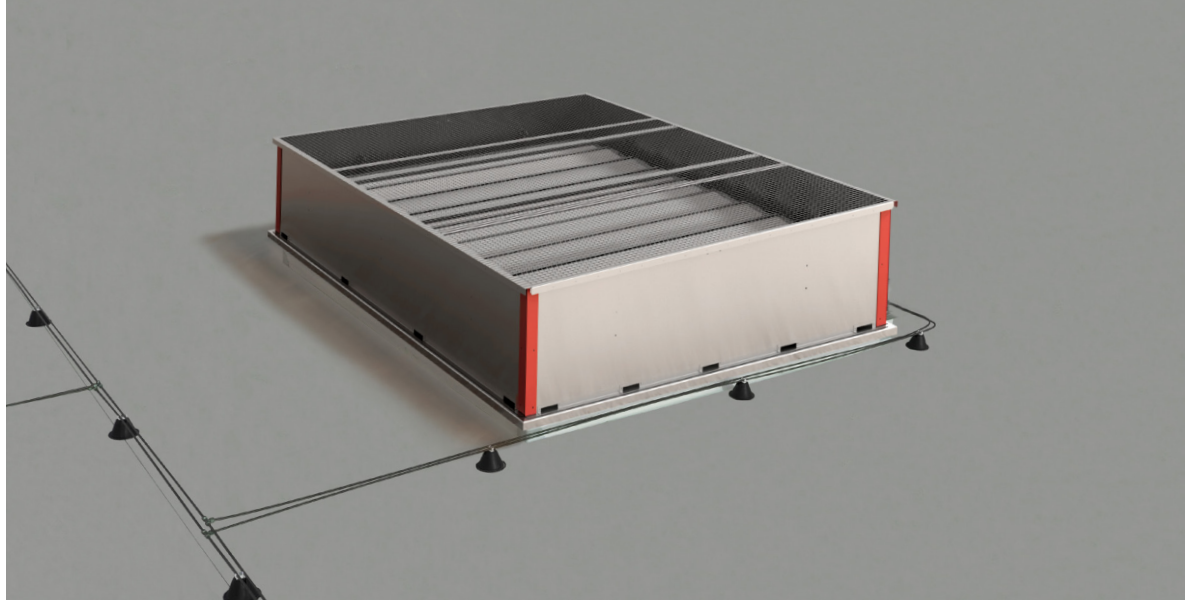

## CARACTERÍSTICAS DO PRODUTO

Na indústria alimentar e de distribuição alimentar existe a necessidade de ventilação natural através da cobertura sem a intrusão de animais (insetos, aves).

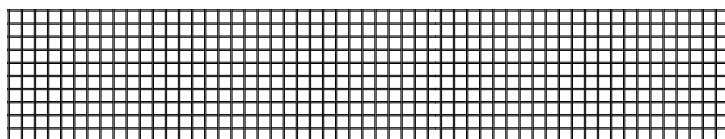

De forma a precaver para este tipo de situações, respeitando as normas de higiene e segurança, os nossos produtos oferecem dois tipos de soluções: rede anti-pássaro e rede anti-insetos.

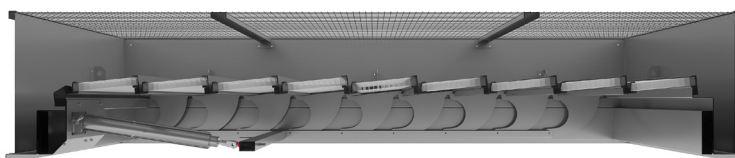

# rede antipássaros e anti-insetos
