

PRODUCT FEATURES

DELTA is a double flap smoke vent suitable for the removal of large quantities of warm air and / or smoke from a building within a short period of time, daily ventilation and natural lighting. Suitable for utilization on various kerbs and domes.

The vents are manufactured according to ISO 9001 quality control standards and comply with the European requirements for NSHE according to EN 12101-2. Endurance tests with 10,000 opening and closing cycles have proven its robust and functional design. The vents are formed from high quality corrosion resistant aluminium to ensure low maintenance requirements and watertightness.

Various methods of operation using pneumatic or electric actuators are available. Available on large dimensions, up to 2500 x 3500 mm (width x length).

delta

TYPICAL APPLICATIONS

May be installed either onto roofs or into barrel vault daylighting systems. Particularly suitable for warehouses, logistics centres, production environments and industries.

MATERIALS

Tempered aluminium, sea water and corrosion resistant (EN AW 5754).
Corrosion resistant bearings.
Sealant applied so that there is no freezing, enabling the equipment to have low air permeability at the same time.

Note: aluminum is supplied untreated as standard. Possibility of being supplied with electrostatic painting (in any RAL color).

DIMENSIONS

Roof opening width: 1000 - 2500 mm.
Roof opening length: 1000 - 3500 mm.

OPENING ANGLE

Individual adjustable from 0° up to 90°.

ACOUSTIC PERFORMANCE

From 20 dB until 37 dB, depending on the type of the flap and acoustic kit.

CONTROLS NATURAL VENTILATION

P2: double pipe compressed air operation.
M230V: electric motor.

CONTROLS FIRE VENTILATION

P2F: double pipe compressed air operation with fire function.
M24V: electric motor.

WEIGHT

Depends on dimensions and type of infill.

OPTIONS

Custom dimensions.

Powder-coated design (any RAL colour).

Bird or insect mesh/ Anti-fall grid 1200 J.

REGULATIONS

The system has been tested and is certified in accordance with EN 12101-2.

Tested in accordance with the Directive 2014/34/EU, DELTA is ATEX certified equipment.

FLAPS

AL	Single aluminium.
AL ISO	Thermally insulated aluminium.
PC16	Polycarbonate 16mm, clear or opal.
PC25	Polycarbonate 25mm, clear or opal.
PC32	Polycarbonate 32mm, clear or opal.
TB	Thermal break in the aluminium profiles. Available for flaps of AL ISO, PC25 mm, PC32 mm.

TB AL ISO 50

BASES

Single aluminium.

Double wall aluminium with insulation.

Double wall aluminium with insulation and TB, thermal break in the aluminium base.

Note: other non-standard bases available upon request.

FLANGES

S1	Flange for single glass.
S2	Flange for double glass.
S3	Flange for roofs, 45° bended.
S4	Flange for roofs and facades.
S5	Flange for upstand, 90° bended downwards.
S6	Flange 90° bended upwards.
SLS	Flange for skylight connection, for different polycarbonate thicknesses.
SC	Flange for connection with other flange (vents connection). Male or female connection.
SCM	Flange for male connection.
SCF	Flange for female connection

Note: custom flange design and insulated flanges upon request.

1701 UP TO 2500

DOUBLE FLAP SYSTEM WITH SHORT CYLINDERS, DELTA-S

Deviating from the standard version, DELTA can also be designed with short cylinders. This variant is used when there is a risk that the cylinders could collide with the existing bottom pipe-work, beams or other objects on site.

The DELTA-S variant is available in sizes:

Width: 1200 up to 2300 mm.

Length: 1000 up to 3000 mm.
