

PRODUCT FEATURES

MONODELTA TG is a single flap smoke vent suitable for the removal of large quantities of warm air and / or smoke from a building within a short period of time, daily ventilation and natural lighting. Suitable for utilization on shed style roofs.

The vents are manufactured according to ISO 9001 quality control standards and comply with the European requirements for NSHE according to EN 12101-2. Endurance tests with 10,000 opening and closing cycles have proven its robust and functional design. The vents are formed from high quality corrosion resistant aluminium to ensure low maintenance requirements and watertightness.

Various methods of operation using pneumatic or electric actuators are available. Available on large dimensions, up to 1000 x 2000 mm (width x length).

TYPICAL APPLICATIONS

Shed style roofs: 15/15, 30/30, 45/45.

MATERIALS

Tempered aluminium, sea water and corrosion resistant (EN AW 5754).
Corrosion resistant bearings.
Sealant applied so that there is no freezing, enabling the equipment to have low air permeability at the same time.

Note: aluminum is supplied untreated as standard. Possibility of being supplied with electrostatic painting (in any RAL color).

DIMENSIONS

Roof opening width: 500 - 1000 mm.
Roof opening length: 500 - 2000 mm.

OPENING ANGLE

Open angle from 0° up to 85°.

CONTROLS NATURAL VENTILATION

P2: double pipe compressed air operation.
M230V: electric motor.

CONTROLS FIRE VENTILATION

P2F: double pipe compressed air operation with fire function.
M24V: electric motor.

FLAPS

Double glazing up to 30 mm thickness.

BASES

Double wall aluminium with insulation and TB, thermal break in the aluminium base.

FLANGES

- S1** Flange for single glass.
- S2** Flange for double glass.
- S3** Flange for roofs, 45° bended.
- S4** Flange for roofs and facades.
- S5** Flange for upstand, 90° bended downwards.
- S6** Flange 90° bended upwards.
- SLS** Flange for skylight connection, for different polycarbonate thicknesses.
- SC** Flange for connection with other flange (vents connection). Male or female connection.
- SCM** Flange for male connection.
- SCF** Flange for female connection.

Note: custom flange design and insulated flanges upon request.

WEIGHT

Depends on dimensions and type of infill.

OPTIONS

Custom dimensions.
Powder-coated design (any RAL colour).
Bird or insect mesh.
Anti-fall grid 1200 J.

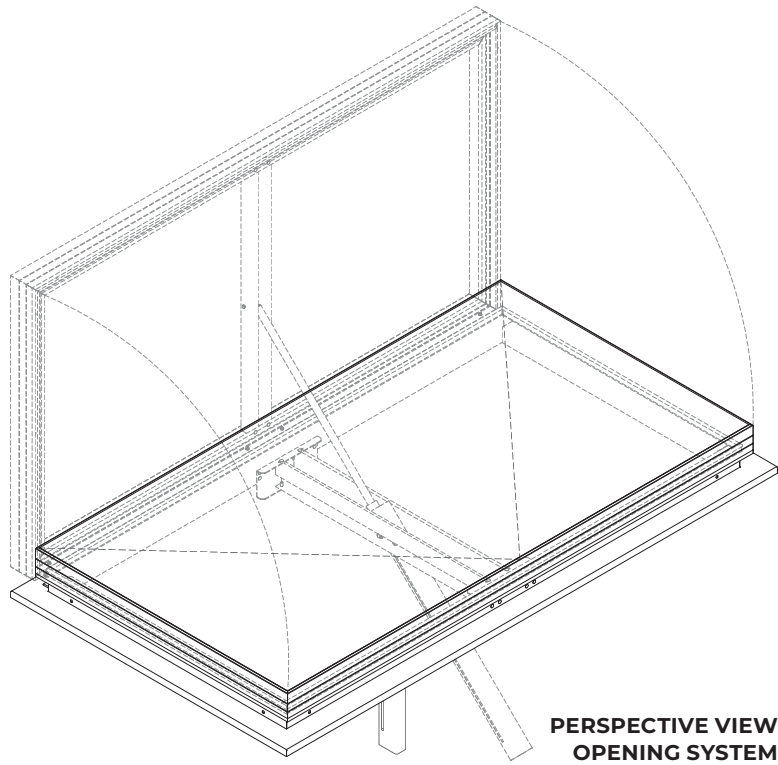

REGULATIONS

The system has been tested and is certified in accordance with EN 12101-2
